THE PROPOSED OCEAN RACE

Literest Excited by the Suggested Trans-Atlantic Contest.

Sir Thomas Lipton Ready to Enter His Old and New Challengers Against the American Yachts-Similar Contests in the Past Recalled.

NEW YORK, June 18 .- Great interest has been aroused among yachtsmen by the suggestion that at the conclusion of the coming contest for the America's Cup the Constitution, Shamrock II, and perhaps the Independence participate in a

race across the Atlantic.

According to despatches from London the proposition has met with the approval of Sir Thomas Lipton, who says, however, that he never contemplated an ocean race except under yawl rig. Under that rig he does not think the contest would be dangerous. Sir Thomas sug-gests that the owner of each boat sail on her, if the trans-Atlantic contest takes place. In the matter of masts to be used he would leave the selection to the designer. Sir Thomas adds that if the the owners of Cup yachts, he will enter the two Shamrocks for the competition. The race, according to his opinion, should be Narrows, on the morning of March 12 divided into two legs—the first to the

the ocean, said that he considered it impracticable to carry out the proposed race with the Cup yachts carrying their Whole population. The Luckenbach took down the judges, among whom were C. W. Bird, E. S. Jaffray, and W. S. Al-

point off Cowes as the finishing line.

mere announcement of such a race, while theless looked upon this latest proposal as a "Yankee dream" which would never be realized. Up to that time no Britisher had attempted to sail over to recapture posed that the big sloops called the nine ty-footers, the challenger for the Queen's America's Cup, and the defender thereof should make the 3,000 mile race it is looked upon as a matter of course.

In the thirty-five years since the Hen-rietta, the Fleetwing and the Vesta raced to the Needles there has been more than one Atlantic match for schooners. The challenging cutters have come over on their own bottoms, and a defender, the Vigilant, and one built for the honor, the Navahoe, have sailed to Britain's waters and taken away other cups. When the Henrietta, the Fleetwing, and the Vesta made the voyage the "London Times" said: "It was reserved for the Americans to send three yachts to do in the Atlantic | their enorme not only what is generally done on an inland sea, but to carry on a race of this kind for a whole fortnight. This ocean race has brought high national qualities into play, but the Americans were true to their pretensions and shot clear ahead of TROUBLE IN THE CORN CORNER. the Old World. The Americans have one more done a thing never attempted by

A THREE-CORNERED OCEAN RACE. Success, and at last the ocean race was decided upon for a stake of \$90,000. And no fair weather salling was sought. All of these boats were strongly built after the manner of the time, and December 11, 1966, was selected as the day for the start. At noontime on that day, with a fair wind the names of all parties he traded in corn with in handling the 13,500,000 bushels the Fleetwing a red one and a white one flew from the Vesta. On board the Vesta as judges for the other two were Stuart Taylor and G. M. Lorillard; on the Fleetta was handled by Captain Johnson. The River Queen, with 160 invited guests on board, went down to the Hook for the out by 12:50, and at 1 o'clock the signal follower. A minute or so behind went the

Fourteen days later, at 5:45 p. m., on Christmas Day, the Henrietta sailed past the Needles and into Cowes. At 2 o'clock the following morning the Fleetwing arrived, and an hour and a half later the Vesta sailed into the harbor. No wonder the "London Times" called it an "un-precedented contest."

The best day's sailing during the race was the covering of 280 miles, and the poorest when only 13 miles were sailed, owing to a storm which compelied the yachts to lay to. The winning yacht was designed by William Tooker and built by Henry Steers, who built the America. was the covering of 280 miles, and the poorest when only 13 miles were sailed, yachts to lay to. The winning yacht was Henry Steers, who built the America. James Gordon Bennett and Jim Fisk were her owners. No one of the yachts was over 126 feet over all length. That is to say, they were not within six or eight feet of the length of the Columbia or the Con-

Another yacht built in this year of 1895 was also destined to become famous. This was the Hirondelle, built by Forsythe & Morgan at Mystic Bridge, Conn. James Gordon Bennett purchased her in 1899, and had her remodeled by J. B. Van Deusen at Noank, Conn., and renamed her the Dauntless, and immediately began to set the pace for every schooner yacht that came along. She won prize after prize on this side of the Atlantic, and then she set sail for England.

THE MATCH OF 1856. either yacht built in this year of 1866 also destined to become famous. This

THE MATCH OF 1870. In 1870 it happened that a Britisher, after almost twenty years, took heart to make an attempt to recover the long-lost for several days the young woman recup. James Ashbury had the schooner Jacht Cambria built, and with her chalenged the New York Yacht Club. Ben-Mett thought that as the Cambria was Bailing over the ocean, the Dauntless might as well accompany her, and a race was agreed upon. The two yachts started from the Needles at 2 o'clock on the afternoon of July 4, 1870. Nothing was heard of them until July 27, when at 3:30 in the n the Britisher passed the buoy at Sandy Hook. The American yacht arrived 1 hour 17 minutes later.

-six miles more than her rival, mak 963 miles, as against 2,917. The blan or the defeat of the Dauntless, which s undoubtedly the faster boat, was at ributed to the presence of too many skip ers of genius on board, for the famou famuels himself was there, as well a old Dick Brown, who won the cup with he America; Capt. Martin Lyons, one o greatest of the Sandy Hook pilot G Commodore James Gordon Bennet ne Cambria, on the other hand, was sai by Captain Tannock, an old shipmasterning between Liverpool and Montrea

THE CORONET AND THE DAILYTLESS The Coronet and the Dauntless wer Azores and the second to Falmouth,
In an interview, Captain Hamilton,
who in 1899 navigated Shamrock I across racing gear.

The discussion of this ocean race proposition recalls the first competition of this kind attempted, when Aemrican yachts, the racing schooners of thirty-five years ago, sailed from the Narrows, with a point off Cowes as the finishing line.

swept the Narrows, but the yachts set every inch of sail; and at 1:13:50 the Corpoint off Cowes as the finishing line.

The American public was amazed at the lowing at 1:15:02.
Captain Crosby, who is still hale and Britons were even more astonished, for although an American yacht had sailed over fifteen years before, and had slipped of the U. S. Navy. looked after the forof the U. S. Navy, looked after the for tunes of the Dauntless. At 3:25 the yacht had passed away to sea, and on March 27 the Coronet was welcomed at Roche's Point by the judges on the other side, the members of the Royal Cork Yacht Club She had made the voyage in 14 days 2 hours 32 minutes. The Dauntless did not arrive until two days later, making the journey in 16 days 1 hour 43 minutes. This was the last yacht race over the occan.

Inis was the last yacht race over the ocean.

The fate of these yachts since then has been widely different. The Coronet is still sound, and is being made ready at Tebo's to hoist the flag of her owner, J. J. Waterbury, for the season. Young Colt is dead, and the Dauntless is lying at New London, rotting away, his mother refusing to have strange hands laid upon her. The Fleetwing and the Vesta are in Mannings', Erie Basin, both sadly in need of a cleaning up. The Henrietta went into the truit trade, and lies under the sea at Horduras.

Hor luras.

The 93-foot sloops are not the staunch boas: that these old schooners were, nor will one of them be in existence, like the Fle twing, thirty-five years hence, but they are strong enough to cross the occan. They could not, of course, carry their enormous racing sail spreads, twice as much as was ever carried by the fine old schooners, but they can go under

was not a favorite with the principal, and

fused to attend school, claiming to be per feetly familiar with the textbooks in that class. Finally Hughes summoned her to the schoolhouse. He had laid in a supply of stout hickories and with these proof stout hickories and with these proceeded to give the girl a whipping alleged to be "outrageous and cruel." The stumps of two whips were exhibited in court, witnesses saying they had been worn out on the girl's body. Her clothing had been torn and she was bruised and criss-crossed with welts.

Hughes employed counsel and demanded a jury trial. The jury found him guilty of assault and battery without leaving their seats. Hughes was sentenced to a month on the chaingang. He paid the alternate fine and appealed to the Court of Sessions.

SPINAL BONES REMOVED.

A Delicate Operation Performed on

BALTIMORE, June 18.—Clarence E. Thomas, of Westmereland County, Vir ginia, a patient at the city hospital, is owing to a delicate operation, which, it is believed, will result successfully. Re-cently Mr. Thomas was the victim of an ecident in which his back was broken When admitted to the hospital the doc tors found that four of the vertebra sections pressed on the spinal cord. The sections pressed on the spinal cord. The muscles at that point were severed and pushed aside with the knife, and the broken bones extracted. The operation is rare and considered to be a very delicate and skilful one.

Mr. Thomas, if he recovers, will have to wear an appliance similar to corsets in place of nature's supports. Yesterday Mr. Thomas limbs and lower portion of his body were placed in a plaster cast. The physicians say that he is getting along nicely.

FAITH HEALING ARRAIGNED

A Philadelphia Preacher's Address on Christian Science.

His Sareastic Arraignment of Mrs. Eddy and Her Claims-A Declaration That Gullible People Are Often Misled by Sounding Names.

PHILADELPHIA, June 18 .- Rev. F. Demaris, pastor of the State Street Methodist Episcopal Church, read a pa- ficials have been unusually diligent in er on Christian Science yesterday beore the Camden Preachers' Meeting. "We live in a land of religious freelom," said he, "a country the soil of temples of Buddha; if Jew, we may be eventeen kinds of a Methodist.

white, orthodox and heterodox, Christnoney and take your choice; you may take up with the more modern kind.

"In the religious world of today there head and heart powers are insufficient to make them prominent in the churchwhere they are, have a spasm because of the non-recognition of their imaginary talents. This asm results in an sm, and, strange to say, will speedily get a following, respectable or other- law. vise, for there are many Micawbers waiting for something to turn up' in the religious line.

"One of the most pernicious of the new fad religions is that of Christian Science. This society has one ordained pastor for the 300 American churches, and has at least 1,000,000 votaries in the United States. The paster was ordained in 1881, and today lives in luxury, is almost inaccessible in her palace, is frequently seen riding in her Victoria dressed like a queen. She really poses as a female Christ. Almost 200,000 copies of her book are in circulation. Mrs. Eddy claims to be inventor, creator, or founder of the boon or bane of Christan Science. She is compared to Christ, whose face is made to resemble hers a picture where the two stand side y side. She has not been a well wean for forty years, yet she is believed be perfectly sound by her disciples, he is thought to be the fulfillment of ne prophecy as recorded in the tenth and twelfth chapters of Revelations. Fig. Eddy's devotees claim that she

the feminine principle of the Messi-dic expectation in the nineteenth cen-try; that the man child born of the localyptic woman is Christian Science, hile the angelic little book preceding his birth is Mrs. Eddy's Science and Health, with key to the Scriptures, "Mrs. Eddy claims that she is the originator of the term Christian Science. She says: It was in Massachu-setts, in the year 1866, that I discovered the science of metaphysical healing, which I afterward named Christian Scieffects to a mental cause, and in January of 1866 I gained the scientific certainty that all causation was mind, and every effect a mental phenomenon.

"Mrs. Eddy claims to have been for Fuc

many years a sufferer from chronic diseases, and finally met with an accident which produced, according to physicians, a fatal injury. The physicians gave her up to die, declaring that she would not live until noon. She replied that she would be well at that time. Her pastor called after service, and found her busy about the house. Now she teaches it to others at the rate of \$800 for the thirty lessons which are required for the mastery of the subject. "Christian Science is a misnomer. It any years a sufferer from chronic dis

"Christian Science is a misnomer. It s neither Christian nor scientific. It it ascientific because it is illogical, here is no sickness of body, no pain. "Eradicate all thoughts of physiology,

"It is unscientific because it is an-tagonistic to hygienic law; it is unsci-entific in the doctrine that as we grow lder we shall grow younger. This new system will make us younger at seventy years than we were at seventeen.
"It is unscientific because it is in opsition to the known laws of obstet ics: it is unscientific because it teach-

the mind of the public, and get them to think that alcohol is not intoxicating. We must impute some other virtue to it; impute to it the same virtue that we do to castor oil, and the drunk-enness of the people will be a thing of

"In the name of God, how can a docrine be Christian that denies the fun-lamental principles of our holy Chris-tianity? How can a thing be scientific these? Christian Science is certain-a misnomer. It's a wolf in sheep's thing. It's a pirate craft sailing un-Japanese ler the Christian colors. It is mas-querading with a mildewed theosophy on the one hand and a metaphysical of the abominations of the present age air on the outside, but rotten at the core. Insidiously it is worming its way nto the thought of the age, and I beieve the time has come when the clerry should speak out in no uncertain sound, and, if possible, check the growth of this erroneous belief, which is done and is destined to do a great

EFFECT OF BOXER TROUBLES. China's Export Trade Not as Greatly Impaired as Expected.

Samuel L. Gracey, the United States Consul at Fuchau, China, writes to the State Department that, notwithstanding the serious interruptions to the foreign trade of China last year, the final results are not as disastrous as was feared. Imports at Fuchau fell to 5,644,110 haikwan taels (84,067,710), against 6,800,960 haikwan taels (\$4,900,092), by 1899, and 5,816,862 haik-

Referring to Chinese export trade in

general, the consul says: "Of goods exported, tea is the principal item. The total export of that commodi-ty for 1900 was 40,342,288 pounds, against 44,148,650 pounds for 1899, 38,718,940 pounds for 1898, and 35,887,522 pounds for 1897. As compared with 1890, this is a falling off of

37 per cent.

"The change of destination of shipments of tea is also worthy of note: Europe, 1896, 25,661,617 pounds; 1891, 11,295,705 pounds; 2896, 11,295,705 pounds.

Australia, 1896, 15,256,728 pounds; 1991, 6,514,-722 pounds. United States and Canada, 1896, 3,464,857 pounds; 1931, 11,855,217 pounds; South Africa, 1890, 1931, 11,855,217 pounds; South Africa, 1890, 1,543,652 pounds; 1991, 1,578,864 pounds. North China, 1890, 8,884,-489 pounds; 1990, 5,633,559 pounds. South China, 1890, 4,712,889 pounds; 1991, 4,266,212 pounds. Total, 1890, 59,458,739 pounds; 1991, 4,262,212 pounds. Total, 1890, 59,458,739 pounds; 1991, 49,322,288 pounds.

"The probabilities of continued interference with the tea trade during 1991 by the Boxer troubles seem to have influenced American purchasers, and the result was one of the largest shipments of tea ever made from this port to America. "The shipment to Europe fell-off 5,000,-000 pounds from that of the previous year, while that to Australia increased about 1,000,000 pounds. change of destination of shipments

A SUBAMRINE TORPEDO BOAT. Claims Made for the Vessel of the

BRIDGEPORT, Conn., June 18.—The Lake Torpedo Boat Company was incor-porated in New Jersey during the week, with a capital stock of \$1,000,000. The charter is very elastic, but the main purpose of the company is to manufacture submarine torpedo boats. The principal was a bricklayer by trade. Of late years, backers of the project are Lebbeus B. on account of feeble health, he had not hackers of the project are Lebbeus B. on account of feeble health, he had not Miller, Superintendent of the Singer Man-worked at his trade. Several grown sons ufacturng Company, of Elizabethport, N. and daughters survive him.

submarine boat before the Navy Depart- this city. ment for consideration, but were unable to do so until the last session of Congress, Loan Association has sold to Mrs. do boats. Immediately the Lake Subharrine Torpedo Boat Company set draughtsmen at work designing a torpedo boat of the Argonaut type. Since January the designers have been working on the new the Argonaut type. Since January the designers have been working on the new boat at the offices of the Sound and Coast School was held in McBurney's Hall last Wrecking Company, in Bridgeport, and yesterday completed their work. Plans and specifications have already been sent to concerns capable of manufacturing such craft, for bids, and Mr. Lake, the inventor of the new type of torpedo boat, who is president of the company, expects to place the contract for the trial boat

During the last few weeks representa-tives of the British, Chilean, Russian and Japanese Governments have been in Bridgeport investigating the Argonaut type, and efforts have been made to purse outright from Mr. Lake the rights to manufacture the boats for these foreign Governments. "I have refused to consider the offers of

foreign Governments," said Mr. Lake, until after my own Government has had an opportunity to decide if it cares for the Argonaut type of submarine torpedo boat. If the United States Navy does not want the boat, then it will be time enough has done and is destined to do a great deal of harm. There are a great many new fangled ideas that will soon die if let alone, but I do not think Christian Science is one of these. To let it alone means rapid expansion, with its financial backing, its smooth manner and Biblical name, it commends itself to a great many people as the gold brick does the greenhorn."

want the boat, then it will be time enough to consider the offers of foreign Governments. The new boats will be capable of being navigated on the surface, at any predetermined depth, or on the bottom. They will be much like the Argonaut in general arrangement, but, with more power and finer lines, so as to get more speed. The company proposes to place a contract for one of the new vessels in a age batteries when submerged. She will be fitted with wheels for traveling over the bottom, and hydroplanes for traveling and any predetermined depth. She will also have diving compartments to enable divers to leave the boat while submerged. Great secreey has been observed by every one connected with the designing of the boat, and while his is the first authentic statement gaven out by the Inventor, Mr. Lake, it is believed that there are a great many features about the new boat to recommend her to the Navy Department which are being withheld, and will not be divulged until the experimental trials are made.

Catarrhal symptoms are most vital a

Catarrhal symptoms are most vital and important because nature has ordained them as plain unmistakable danger signals. They apply directly to the organs vital to life. They call at once for the care of physicians experienced enough to

During this week the methods and means employed in the cure of Catarrh are to be shown and explained to all whether taking treatment or not. Those who desire to begin treatment are to be treated for \$1.00 a month.

Under this rate all persons suffering from Catarrh will receive the same honest, skillfu! treatment and the same care and attention that they would receive if they paid \$10 a month.

Those who have read the chapters devoted to Germ diseases and who have been impressed with a desire to be treated by these advanced methods have this opportunity now. opportunity now.

There will be no extension of the \$1 rate for Catarrh, which ends June 22 at

X-Ray Examinations free in diag. nosing for deep sented disense. No charge for Medicine or Advice. A whole staff of physicians at your service absolutely FREE.

This Treatment Can Be Taken at Home. Patients living at a distance, inclosing with application by mail, are entitled the privilege of this rate.

John Williams, a butcher of Westernport, Allegany county, aged thirty years, son of Henry T. Williams, of Cumberland, was drowned yesterday morning in the Potomac River at Bloomington, Garrett county. He was fording with two calves in his wagon. The wagon was upset by striking a bowlder. Mr. Williams became entangled in the harness and was drowned, as was his horse.

Mrs. Nora E. Pigman, who lived with her mother, Mrs. Philip Rhoden, in the house adjoining the Reformed Episcopal Church in Cumberland, wrecked by a gas explosion Sunday morning, was carried through the floor from the upper story by the debris which fell on her mother's house. She has recovered consciousness. Her injuries are far more serious than at first thought.

Peter H. Long has filed a petition to

first thought.

Peter H. Long has filed a petition to have his sister. Miss Vesta A. Long, of Smithsburg, adjudged insane. She has much valuable property. She is entitled to a sum of money left her by the late Mattie Kisecker, of Franklin county, Pa. which was distributed to her some years ago, but she steadfastly refused to accept the money and also other moneys. Piles is a tediour and persistent disease which wears out the patience of its victims. It has several forms of torture. Sometimes it's a maddening itching sensation. At other times it's a knot of aching tumors highly inflamed.

The only way to cure the disease permanently is to use a remedy that has the power to permeate through the delicate membranes and tissues and remove all traces of inflammation.

The Psyramid Pile Cure possesses this power to perfection. It is formulated on scientific principles by specialists whounderstand the nature of the disease thoroughly.

Thousands have been permanently cured by it and the manufacturers have come to look which was distributed to her so which was distributed to her so the ago, but she steadfastly refused ept the money and also other due her. The court in Hagerstown has filed an opinion in the case of the Washington Junction Stone Company against the Baltimore and Ohio Railroad, setting aside the award of the jury, which was considered insufficient, and ordering a new sidered condemnation to meet july 5. The

IN THE OLD DOMINION.

John Herndon, of this city, has sold to Col. Musce L. Spotswood, of Richmond, a valuable relic in the shape of an old tea caddy, that was for years in daily use in Governor Spotswood's mansion. The caddy is of silver and bears the Spotswood coat-of-arms and crest.

The ladies of the Alexandria Free Kindergarten Associatiton will give a garden party at 219 North Washington Street tonight. The proceeds will be used to pay the cost of a piano.

William Henderson, oclored, died at the age of seventy-nine Monday at his home at the corner of Royal and Pendieton Streets.

William Walker, colored, who was struck by lightning on Thursday last, while on top of a telegraph pole, has respected synthesis with the pashe to leave the peans of the spot of the work of the penitentiary for five years.

The young men who gave a minstrel show several weeks ago for the benefit of the Alexandria Free Kindergarter have made arrangements to repeat the performance the latter part of this month, under the auspices of Potomac Lodge of Odd Fellows. A number of new features will be added.

MARYLAND NEWS NOTES.

Considerable damage is reported from various sections of Rockbridge county from recent rams. Fences and bridges are washed away and great damage has been done to crops.

Rev. William Cabell Brown, missionary of the Protestant Episcopal Church in Brazil, delivered an address on the subject of the work which has been done by that church in the field in which he labors at Grace Episcopal Church, in Berryville, on Sunday.

John T. Suntion, a Confederate veteran

Confederate Veterans.

The large stone bridge on the Valley Pike spanning Tumbling Run, near Fisher's Hill, was swept away by a flood in that stream early Sunday morning. Bowser's milldam broke, carrying the mill with it, and the debris swept the centre pier of the bridge away, causing a loss of \$4,000. Great damage was done to the surrounding property.
